LA LAMPADA

www.lalampada.com

Fondata nel 1975, LA LAMPADA è un'azienda specializzata nella produzione di lampadari e sistemi di illuminazione interamente "Made in Italy".

Adottando un approccio flessibile improntato sia sull'innovazione, che sulla ricerca della qualità abbiamo maturato un know-how all'avanguardia nella lavorazione di numerosi materiali come legno, vetro, tessuto, cristalli, ecc.

L'impiego delle tecnologie più evolute, è stato sviluppato di pari passo con uno studio accurato del design: oggi siamo, infatti, in grado di proporre costantemente nuovi modelli di forte appeal che si distinguono per quella spiccata originalità che caratterizza l'Italian lifestyle.

L'eccellenza qualitativa e stilistica dei nostri prodotti diventa così lo strumento ideale per essere più competitivi sia a livello nazionale, che internazionale.

Per soddisfare pienamente ogni richiesta del mercato ciascun prodotto viene, inoltre, sempre più connotato sulla base della funzionalità e del design, e sviluppato per linee differenti che vanno dal classico al moderno, dal country al tecnico per bagni...

Grazie ad un'approfondita conoscenza dei materiali e delle tecnologie unite al guizzo della creatività, siamo in grado di realizzare, in esclusiva per i nostri clienti, collezioni altamente personalizzate.

Founded in 1975, LA LAMPADA is a company that specialises in the manufacturing of light fixtures and lighting systems that are entirely "Made in Italy."

Using a flexible approach characterized by innovation and a quest for quality, we have acquired cutting-edge know-how in working materials, such as wood, glass, fabric, crystal, etc.

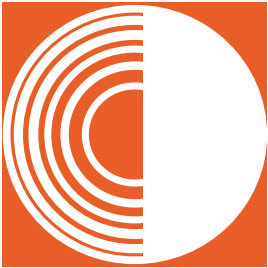

The use of the most evolved technologies goes hand in hand with in-depth design analysis.

In fact, today we are able to continuously offer highly appealing new models that stand out for that distinct originality that characterises the Italian lifestyle.

Thus the excellence of our products in terms of quality and style becomes the ideal tool for being more competitive both nationally and internationally.

To completely satisfy each market request, every product is increasingly being conceived based on functionality and design and developed into different lines, which range from classic to modern, from country to technical (for bathrooms)...

Thanks to an in-depth knowledge of the materials and technologies combined with our "creative spark", we are able to create highly personalised collections exclusively for our clients.
